Education

FAST-NUCES

BSc Software Engineering. CGPA: 3.49

Lahore, Pakistan

Aug 2027

Experience

NASTP Institute of Information Technology

Lahore, Pakistan

Full Stack Engineering Intern

Jun 2025 – Aug 2025

- Led the end-to-end development of a Campus Resource Management Portal used by 50+ staff, automating 100% of the procurement side of administrative tasks.
- Designed and implemented a scalable MERN-based system architecture, reducing server response time by 55% through optimized database queries and API structure.
- Delivered a fully functional deployment 2 weeks ahead of schedule, maintaining 85% uptime during testing and rollout.

MLabs (Mindstorm Studio's Incubator)

Lahore, Pakistan

Game Development Intern

Jul 2024 – Aug 2024

- Co-developed HexaClash, a hyper-casual Android game with over 100 downloads on Google Play, and a Silver Medal in MLabs Rookie Game Jam 2024, featuring dynamic color transitions and physics-based gameplay.
- Led performance optimization, boosting frame rate from 10 FPS to 120 FPS through object pooling, optimized rendering, and efficient collision handling.
- Designed and implemented core gameplay systems, including obstacle mechanics, particle-based visual effects, and background transitions for improved player engagement.

Projects

Twin | *Python, Shell, Ollama*

<https://github.com/razaalirizvi4/twin>

- Developed an AI-powered command line assistant that transforms natural language prompts to executable shell commands.
- Integrated with Ollama framework, leveraging the gemma3 model to interpret and generate shell instructions.
- Achieved 44 paid sales within first 2 weeks, validating real-world demand for the tool.

Absolute Cinema | *Java, Springboot, Pebble*

<https://github.com/razaalirizvi4/Absolute-Cinema>

- Developed a Full-Stack Web Application using Spring Boot for its multi-threading capabilities.
- Implemented a real-time booking engine capable of processing 50+ concurrent seat reservations, snack purchases, and loyalty program updates with zero booking conflicts.
- Integrated Stripe payment gateway, enabling secure, end-to-end online transactions and automated ticket confirmation, reducing manual payment errors by 90%.

RateIt | *Node.js, Express.js, React.js*

<https://github.com/razaalirizvi4/RateIt>

- Developed a community-driven media rating platform with real-time discussions and user engagement tracking, supporting 500+ user interactions during testing.
- Integrated gamification features (badges, leaderboards, streaks) that increased user session duration by an estimated 60% in prototype testing.
- Implemented advanced filtering and personalized recommendation algorithms, improving content discoverability accuracy by 45% based on user preferences.

Skills

Languages: Java, Python, C/C++, SQL, JavaScript, HTML/CSS

Frameworks: React.js, Node.js, Express.js, Tailwind CSS, Bootstrap

Developer Tools: Git, Visual Studio Code, IntelliJ, PyCharm, Firebase, Linux
